Profile

Software Engineering graduate with hands-on experience in software development and database design, with a strong interest in building web applications and continuously expanding technical expertise.

Education

Bachelor of Software Engineering,
University of Hafr Al-Batin
2022 – 2026
GPA 3.47 / 4

Technical Skills

- C#
- Microsoft SQL Server Management Studio
- Database Design
- SQL Query Writing
- CRUD Operations
- HTML/CSS
- JavaScript
- Django
- Microsoft Office (Excel, Word, PowerPoint)

Soft Skills

- Problem Solving
- Analytical Thinking
- Teamwork
- Communication
- Time Management
- Adaptability
- Attention to Detail

Professional Experience

Web Development Trainee,
King Fahad Medical City (KFMC)
06/2025 – 12/2025
Developed and tested web application components using C#, ASP.NET Core, and MVC. Designed and managed relational databases using Microsoft SQL Server, implementing ADO.NET and Entity Framework for seamless data access. Contributed to software solutions and database integration while adhering to engineering best practices.

Projects

Library Management System, *Technologies: ASP.NET Core MVC, C#, SQL Server, Entity Framework, ADO.NET*

• Developed a web-based Library Management System using ASP.NET Core MVC and C# to manage library data and CRUD operations
• Implemented the system using Entity Framework and ADO.NET to apply and compare different database access approaches with SQL Server.
• Designed and integrated the database to provide efficient data management and maintainable application structure.

MathQuest – 2D Educational Game for Children,
Technologies: React Native, Expo, Django REST Framework, SQLite

• Developed a mobile educational game that combines mathematics learning with interactive gameplay for children.
• Implemented arithmetic challenges, levels, rewards, and progress tracking to improve engagement and learning.
• Integrated a Django REST API and SQLite to manage player profiles, scores, and game progress.
